Professional Summary

React Native Developer with experience building scalable, high-performance mobile applications using React Native and TypeScript. Currently at Natobotics Technology Pvt. Ltd., delivering production-ready features and integrating Firebase, Supabase, push notifications, and offline-first functionality, contributing to on-time releases and improved app reliability. Strong expertise in mobile UI/UX, API integration, performance optimization, and testing with Jest and Detox. Effective collaborator known for delivering stable, user-centric applications in cross-functional teams.

Experience

React Native Developer | Natobotics Technology Pvt. Ltd.

Dec 2024 – Present (Full-time)

- Developed and maintained **production-grade React Native applications** serving internal and external users.
- Implemented **offline-first functionality**, push notifications, and secure authentication using **Firebase & Supabase**.
- Ensured high performance, responsiveness, and cross-platform compatibility.
- Collaborated with **product managers, backend developers, and QA teams** to deliver features on time.

Full Stack Developer | Freelance

Oct 2022 – Nov 2024 (Part-time)

- Delivered **end-to-end full-stack solutions** for small businesses using React, Node.js, MongoDB, and Firebase.
- Handled **client requirement gathering, solution design, development, and deployment** independently.
- Built responsive UIs, backend APIs, and integrated third-party services including payments and authentication.
- Managed client communication, requirements gathering, and timely delivery.

Full Stack Developer | Itboomi Innovations

Jan 2024 – Aug 2024

- Developed web and mobile apps using **MERN stack** and React Native.
- Integrated **payment gateways, push notifications, authentication (Google/Apple)**.
- Optimized app performance and maintained code quality across projects.

Full Stack Intern | Algojaxson Globalsoft

Sep 2022 – Nov 2022

- Assisted in building scalable web and mobile applications.

PROJECTS

Admin Panel Mobile App – Natobotics Technology Pvt. Ltd.

- Built an internal **React Native admin panel** for application management, monitoring, and operational control.

E-commerce Jewelry Shop – Natobotics Technology Pvt. Ltd.

- Developed an **e-commerce jewelry store using Shopify**, including custom storefront design, product catalog management, and payment configuration.
- Integrated Shopify features to support inventory management and a smooth customer checkout experience.

Online Queue Token Generation System (MVP) – Natobotics Technology Pvt. Ltd.

- Built a **full-stack MVP** for online queue and token generation to manage customer flow efficiently.
- Tech stack: **ReactJS, Node.js, MS SQL Server, Microsoft Azure**.
- Implemented real-time token assignment and status tracking.

Bus Ticket Booking System (MVP) – Natobotics Technology Pvt. Ltd.

- Developed a **bus ticket booking MVP** with seat selection, booking flow, and backend data handling.
- Tech stack: **React, Node.js, Express, MS SQL Server**.

Habit Tracking App – Itboomi Innovations

- Developed a **habit tracking mobile app** with analytics dashboards and reminder notifications using React Native.

Vehicle Service Management App – Itboomi Innovations

- Created a **service tracking application** with booking, service history, and notification features.

Local Friends Social Media App – Itboomi Innovations

- Designed a **hyperlocal social networking app** focused on user connections and community engagement.

Student Social – Final Year Project

- Developed a **decentralized student social platform** using React with backend integration for user interaction.

Small Business Website – Kalai Cocoproducts (Freelance)

- Delivered a **responsive business website** with modern UI/UX tailored for a local enterprise.

Offline Notes & Reminder App – Freelancing

- Built a **cross-platform offline-first notes application** with **Firebase Cloud Messaging (FCM)** for notifications.

ACHIEVEMENTS

Secretary of **EDC Hub** – organized **tech workshops & events** at RP Sarathi Institute of Technology.

Education

B.Tech in Information Technology

– RP Sarathi Institute of Technology, Salem (2020–2024) | CGPA: 8.07/10

Technical skills

Frontend:

- React Native
- ReactJS, TypeScript

E-commerce / CMS:

- Shopify (Liquid, Shopify APIs, Storefront customizations)
- Sanity

Backend & DB:

- Node.js
- Express
- MongoDB
- Firebase, Supabase, SQLite

Testing & QA:

- Jest, Detox, React Testing Library, Unit & E2E Testing

Tools & DevOps:

- Git
- Bitbucket
- CI/CD

Cloud & Integrations:

- Firebase Cloud Messaging, Google/Apple Auth, Payment Gateway Integration
