PROFESSIONAL EXPERIENCE

React Native Developer

Natobotics Technology Pvt. Ltd. | Chennai, India

Dec 2024 – Present

- Architected and shipped **2+** production React Native apps (TypeScript) serving both internal ops teams and external end-users, maintaining zero critical bugs in production.
- Engineered offline-first data sync layer using SQLite + Supabase, reducing app load failures by eliminating dependency on persistent connectivity.
- Implemented Firebase Auth (OAuth, OTP) and FCM push notifications, improving user engagement metrics and securing authentication flows across all apps.
- Delivered an internal Admin Panel mobile app (Android & iOS) simplifying customer management and operational control — achieved **95%** crash-free sessions across both platforms with multi-user role handling.
- Built and launched a full Shopify e-commerce storefront for a jewelry brand — custom Liquid templates, product catalog, inventory, and payment configuration — from zero to live.
- Collaborated daily with PMs, backend engineers, and QA in agile sprints; consistently delivered features on or ahead of schedule.

Full Stack Developer

Freelance / Independent Consultant | Remote

Oct 2022 – Nov 2024

- Delivered **5+** end-to-end full-stack solutions for small businesses (React, Node.js, MongoDB, Firebase), independently managing scope, design, dev, and deployment.
- Built cross-platform offline-first Notes & Reminder app with Firebase Cloud Messaging (FCM) notifications — shipped on both iOS and Android.
- Developed a Habit Tracking mobile app featuring analytics dashboards and reminder notifications using React Native, acquired **100+** active users organically.

- Integrated payment gateways and third-party auth services for **3+** client projects, enabling live transaction processing from day one.
- Designed and deployed a responsive business website for Kalai Coco products, improving the client's digital presence and lead capture.
